

“ Our clients are audited by the financial regulator. Thanks to upc cablecom we can offer them extremely reliable, competitive voice and data solutions. ”

Rafael Torreblanca, CEO, Citovox

Citovox provides standard communication solutions to around a hundred customers with extremely specialised demands. Being active in the financial sector (asset managers, hedge funds), they are strictly moni-

tored by the authorities so data security is of critical importance. Founded in 2004 and partner to upc cablecom for three years, Citovox particularly values being able to offer its voice and data services in a

single, efficient optical fibre infrastructure. Furthermore, upc cablecom's ability to react quickly allows Citovox to quickly provide services to customers all over Switzerland.

Your ambition. Our commitment.
